

## Newsletter October 2025

Unusually our meeting this month was disrupted by inclement weather and the trip to Poole will be re-scheduled. Instead we made the long journey to Stansted Park in order to sample the cakes and get some contributions to our September theme which was "Petals" This proved a popular choice with some colourful and imaginative entries.

Ingrid Reakes

Roger Keynes

Suzy Gardiner

Terry Devaney

The theme for October will be MACRO (or close-up if you prefer). For a good example of this, see Geoff Dennisons photo on an earlier page. Most cameras and phones have a macro facility so here is your chance to try it out!

Our next monthly meeting is due to take place on 9th October and in a change to the provisional programme issued earlier, it will take place at Victoria Park Portsmouth. This is a very pleasant urban park where you can photograph Autumn foliage, textures etc. There is also the chance to practise some macro shots. If you happen to like modern architecture it is also within range of the University buildings.

Suggested meet time 1.30pm. You can get there by both bus (Firstbus no. 8) and train. Nearest car parking is in Cascades.

To round off the year, I will be suggesting a trip to London (St James Park and the South Bank) on 13th November and a Christmas Social on 11th December. We could either have a mix of tutorials (eg smartphone photography, light painting) at Napier Hall or we could just go to a pub! Let me have your thoughts.
