Newsletter March 2026

I thought I'd start this edition of the newsletter with a snap I took this week of a most unusual sky behind the church at Hambledon. This must be the first time this month that I've seen a sky which wasn't grey and emitting water. Things are on the up (I hope).

Our February meeting took place at Gunwharf Quays, a decision influenced by the possibility of some shelter in the event of rain. As we have all been there before on a few occasions with our cameras, I suggested that we had a theme of "Circles". To which there was a great response, as follows:

Anita Woodcock

Bernadette Grima

Clive Midson

Ingrid Reakes

Suzy Gardiner

Our March meeting will take place on Thursday 12th and will be at Hayling Island. Meet at the Beachlands Car Park PO11 0AG at 1.30pm. This is the one by the fairground. We were going to do this back in January but the weather got in the way. As before, my idea is to get some images of the fairground before it gets sold and demolished. There is no shortage of other subjects in that area. If the weather turns out to be bad again, I will make other arrangements.

The Facebook page theme for February was "Traffic". Not the easiest of subjects and for a while we were struggling for entries. However, several of you came up with the goods as the following examples show.

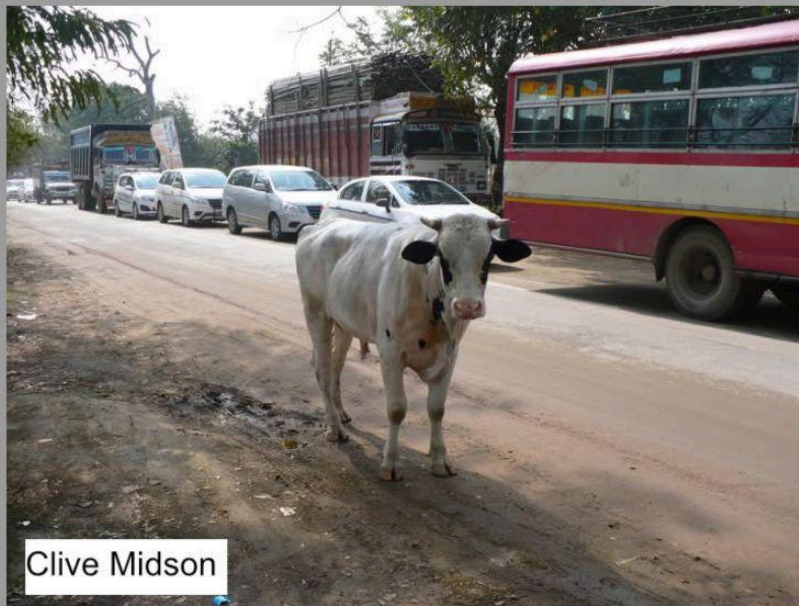

Bernadette Grima

Anita Woodcock

Anne Noble

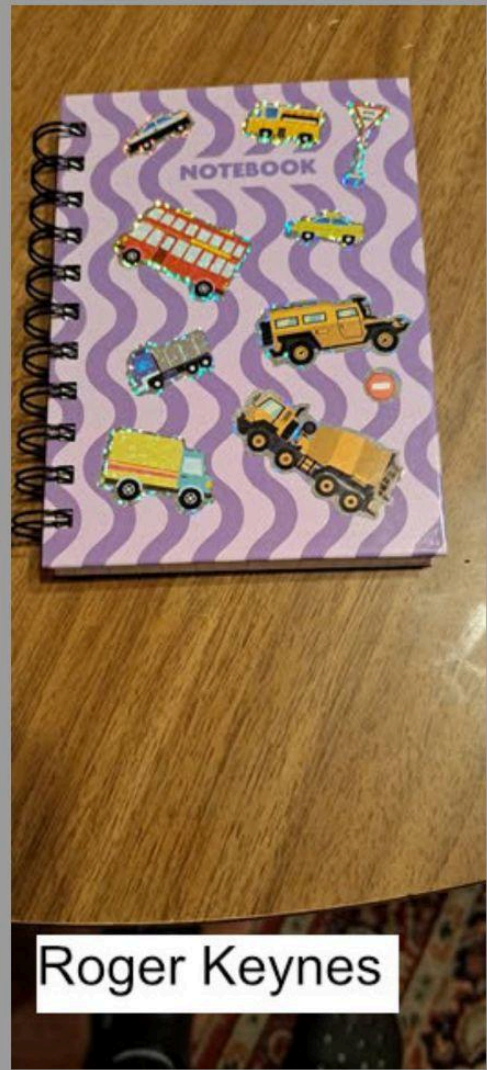

Clive Midson

Geoff Dennison

Ingrid Reakes

Roger Keynes

Patricia King

Richard Veitch

Steve Skinner

Stewart England

The theme for March will be "Movement". As usual post your images to our Facebook page "Horndean U3A Photography Group". If you have any ideas for future group visits, let me know.
